

Mega Millions® jackpots start at \$20 million. There are 9 ways to win and if you choose Megaplier®, you could win \$5 million without even hitting the jackpot.

HOW TO PLAY:

1. Ask the store clerk for a Quick Pick (QP) ticket or fill out a play slip. Each play slip has five boards. Each board costs \$2. Each board contains two sets of numbers: one set from 1 through 70 and the second set from 1 through 25.
2. To play a board, pick five numbers from the set of 70 numbers, then pick one number (the Megaball®) from the set of 25 numbers. Fill in the circles for the numbers you wish to play. Do not use red ink and do not erase. If you make an error, mark the VOID circle, and then make selections on another board.
3. You may purchase the same boards for up to 15 consecutive draws on one single ticket when you check the appropriate number of draws in the “multi-draw” circle.
4. You may select QP and have the computer randomly pick the numbers for you. Either mark the QP option on the play slip for up to five boards and your desired multi-draw option or ask the store clerk for a QP ticket for up to 10 boards and your desired multi-draw option.
5. To multiply any prize won by 2X, 3X, 4X or 5X (except for the Jackpot*), mark the Megaplier circle or tell the clerk you want the Megaplier option. This will add an additional cost of \$1 for each board played.
6. Tickets cannot be canceled after issued. You are responsible for the selection of your numbers and options, not the retailer or the Lottery.

JUST THE JACKPOT

To play only for the jackpot prize, ask the clerk for a Just the Jackpot wager. You can pick your own numbers, or let the terminal pick them for you (Quick Pick). You will get two plays for \$3. This wager will give you a chance to win the jackpot, but no other prize levels.

DRAWINGS ARE HELD AT APPROXIMATELY 10:00 P.M. (CT) EVERY TUESDAY AND FRIDAY.

You have until 8:59 p.m. on draw days to purchase tickets.
